SUMMARY

- I am an Associate React.js Developer with 1 year of experience in crafting responsive, user-centric web applications using modern technologies such as React.js, JavaScript, and TypeScript. My expertise includes integrating REST APIs and optimizing performance in Agile teams. I continuously seek to improve my skills and contribute innovative solutions to impactful projects

SKILLS

Technical Skills:

React.js	JavaScript	TypeScript	
Tailwind CSS	Shadcn	C	Node.js
MongoDB	Express.js	HTML	CSS
MS Word	MS Excel	Power Point	

PROJECTS

Training Management System

Noida Sector 2 D-58

Training Management System enabling course creation, multi-level approvals, employee self-nomination, participant updates, and post-training completion tracking. I contributed to both frontend UI screens and backend API logic, improving approval workflows, validations, and overall reliability.

Task Management System

Noida Sector 2 D-58

Developed and enhanced a comprehensive Task Management System enabling users and teams to efficiently create, assign, track, and manage tasks. Contributed to building an intuitive, fully responsive dashboard UI for all devices, integrating backend APIs, fixing existing bugs, and providing ongoing system maintenance to ensure performance, reliability, and scalability.
